

That is wrong – they will be directly impacted and they will be the most impacted.

It works like this:

- One more high-priced house leaves the rental market to become a B&B.
- That occupant takes their high income to a slightly lower cost house and displaces someone from that rental price range
- That displaced someone moves into a slightly lower cost house and displaces someone else yet again,
- This continues until we reach the lowest rental price rung where someone ends up with no house.

There is no other way for it to work.
